

In-office lab testing

CLIA Club Promotions

Ambulatory Care

In-office lab testing allows you to provide a fast, more accurate diagnosis while the patient is in your office. Patients will appreciate the swift diagnosis which will greatly reduce the anxiety of a patient and provides the opportunity for more effective face to face communication about their current health condition. Not only may it improve your level of patient care, but it may provide an additional revenue stream which can positively impact your practice.
